World-class Premium
FIBC Solution

5 Continents, 35 Countries & Still Counting

Expert Solution Providers For All Your Bulk Packaging Challenges

VISION

We aspire to revolutionize the bulk packaging industry through cutting-edge innovations resulting in safe and efficient solutions. As a leading provider of premium-quality products and services, we strive to set the standard for exceptional customer service. Recognizing that our success is closely tied to our customers and partners. We remain steadfast in our commitment in providing the most effective packaging solutions through a comprehensive, one-stop approach and ongoing advancements.

MISSION

To be the best solutionist for high-quality bulk packaging requirements worldwide, by utilising pioneering technology, sustainable practices and environment-friendly approach.

OUR EVOLUTION

Established in 1990 as a part of the notable conglomerate, Bliss group (1966), Jumbo Bag Ltd was created with ideas based on the legacy of leadership that spans five decades and three generations. We carry forward a rich heritage and the entrepreneurial values of our visionary leader and founder Late Shri Gorantla Ramalingaiah. As a team, we have consistently adhered to our core values, which has enabled us to experience a significant and sustained level of growth.

SERVICE AND EXCELLENCE

Industry Leader

As a company we are constantly evolving and upgrading products and processes to fulfill the customer expectations. We have a strong presence in Chemical, Petrochemical, Mineral, Agriculture, Food and Pharma Industries. We custom design solutions to many companies and can proudly say that many end users began packing their materials in our FIBCS.

Leading the Way

As an industry pioneer, we introduced Jumbo Bags into the Indian market in 1980s and have significantly influenced the development of flexible Intermediate Bulk Container (FIBC) market in India. We have the ability to produce one of the widest range of FIBCs including Type A,B,C and D as well as Baffle lined/ Clean room bags.

Spanning The Globe

At Jumbo Bag Ltd, customer trust is of utmost importance and we take pride in having earned the confidence of numerous Fortune 500 companies. Providing solutions tailored to meet each customer's unique needs is the cornerstone of our approach. Our dedication to innovation, strict adherence to the highest quality standards, and a focus on exceeding customer expectations have not only earned us the trust of our clients but also propelled our ongoing success.

Our Products > Design them with us!

From manufacturing ideas to custom-built solutions for every need, we have a wide range of bags to make your business reach across the globe.

ROUND BAG

The Jumbo Corridor

We have consistently invested in the latest machinery at our manufacturing facilities, ensuring they adhere to international standards. This has enabled us to remain competitive in both the local and international markets. We have a state of the art manufacturing facility for FIBCs. The production facilities are spread across 5 locations near the port cities of Chennai and Mumbai. The combined floor space is 5,00,000 sq. ft. Which includes air conditioned clean room facility. The combined production capacity is 4.2 million bags per annum.

We prioritize food safety with strict management measures and a fully air-conditioned, dust-controlled production facility, that adheres to HARA and GMP principles.

We also lay emphasis on quality control with end to end traceability that ensures highest standards of accountability from the production team. Our QC department assigns unique traceability numbers to each bag, allowing us to trace all details including raw materials, machines, and personnel.

MANAGEMENT PRACTICES

REASONS TO CHOOSE US

Get your problem transformend into solution with our product development experts
